There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circular and testimonials. Address F. J. LIFE SAVERS DROWNED

They Were Attempting to Rescue a Stranded Crew.

Five of the Latter Found Graves Near Cape Cod, Them Being William Mack, Cleveland.

Chatham, Mass., March 19.—A life-saver, practically the entire crew of the Monomoy station, on the south end of Cape Cod, met death Monday at their post of duty and with them into the sea which capsized the life boat went five men from the stranded barge Wadena whom they tried to bring in safely to the shore. One man, Lemuel Ellis, through the heroic work of Capt. Elmer Mayo, of another stranded barge, the John C. Fitzpatrick, was rescued from the bottom of the upturned life boat. Among those lost was William H. Mack, of Cleveland, O., who was on the barge representing his company, the Boutelle Towing and Transportation Co., of that city, while Capt. Marshall N. Eldredge, one of the oldest life savers on the coast, went down with his men. All the life savers came from Chatham and Harwich.

Last Thursday the barges Wadena and John C. Fitzpatrick, on the way to Boston with cargoes of coal, stranded on the Shovel shoal, about three quarters of a mile off Monomoy Point. Since then every effort has been made to float the barges. Sunday night the tug Peter C. Smith, which has been lying beside the barges, ran alongside the Wadena and took those on board that a storm was coming on. All the wreckers were taken on board the tug with the exception of the five men who met their fate Monday. Mr. Mack, who had come on from Cleveland, refused to leave. About 8 o'clock the weather growing very thick, the captain of the tug decided to run into Hyannis. Upon arrival there the captain tried in vain to "float" the Monomoy life savers that were five men left on board the Wadena. Monday forenoon Capt. Eldredge, who had been watching the barges very closely, sighted signals of distress on the Wadena. He got out his crew and surf boat.

The wind was blowing nearly a gale from the southeast. The crew had no difficulty in getting off, but after rounding the point it took nearly an hour to reach the barge. By that time the tide had turned to the eastward and a fierce cross sea had been kicked up. Capt. Eldredge steered the life boat under the lee of the Wadena, and one after another the five men dropped into the boat. With the wind astern it seemed comparatively easy to gain the smooth waters behind the point. When about half way in he thought he discovered a smooth spot over what is called a hole, and the boat was sheered off for it. As she did so a tremendous sea caught her under the stern and she went over, throwing all the men into the water. Being used to the sea all the life savers clung to the boat and managed to pull the Wadena men along with them. An attempt was made to right the boat, but being full of water the life savers only managed to get her partially cleared.

They had some hope, however, of reaching land, until another wave again capsized the boat. Mr. Mack was the first to succumb, and one by one the others dropped away until there were only four left, and these climbed on the bottom of the overturned boat. The four men drifted down in the direction of the Fitzpatrick, where Capt. Mayo, of that craft, caught sight of them. With much daring he dropped a dory overboard and then, jumping into it, started after the exhausted men. Before he reached the life boat three of them had fallen into the sea. Ellis managed to hold on and caught the rope which Capt. Mayo threw to him. He was dragged aboard and then Capt. Mayo, being an expert surferman, pulled around the point into the smooth water and landed the only survivor of the 13 who started from the barge. Ellis was too exhausted to give any accurate account of his experience for two or three hours after getting ashore.

NEW BANK NOTES ISSUED.

Radical Departure in Designs From Former Issues.

Washington, March 18.—The controller of the currency received from the bureau of engraving and printing, and issued, Monday, the first delivery of new national bank notes known as series of 1902.

The notes will be issued only to new banks organized since January 1, 1902, and those extending or re-extending their charters.

Only the denominations of \$10 and \$20 are yet ready for issue. Later, fives, fifties and one hundreds will be issued. These notes are quite a radical departure in designs from the bank notes heretofore issued, and are considered a great improvement. The backs have only one plate printing, which is an artistic vignette printed in green. The faces all bear portraits of prominent officials of the government, these being President Harrison, for the five dollar note; President McKinley for the ten; Secretary McCulloch, for the twenty; Secretary Sherman, for the fifty; and Controller of the Currency John J. Knox, for the one hundred.

To facilitate the assorting of the currency in the redemption agency of the treasury department, the charter numbers, with a system of letters in broad face type designating the geographical division in which the bank is located will be placed hereafter upon both ends of the face of all notes printed, including the new series.

The vessels have since been rigidly guarded.

A FORGED CHECK.

King Edward's Bank Balance Narrowly Escaped a Reduction.

London, March 19.—King Edward's bank balance narrowly escaped a reduction to the extent of £220 Tuesday afternoon by a forged endorsement of a check. The latter was drawn "payable to bearer" by Gen. Sir Dighton Probyn, keeper of the king's privy purse. The check was presented at Coutt's bank, where the cashier discovered the forgery. When the man who presented the check was questioned by the cashier he ran away, but was captured and later remanded to prison. The prisoner gave the name of Alfred Reynolds.

IS ON GERMAN SOIL.

Prince Henry of Prussia Arrives Home Safely.

Emperor William Kissed His Brother Upon Both Cheeks and Shook Hands With Members of the Prince's Suite.

Cuxhaven, March 19.—The return of Adm. Prince Henry of Prussia to German soil was safely accomplished Tuesday afternoon amid all the pomp and circumstance with which the prince's imperial brother has seen fit to mark the successful ending of Prince Henry's American mission.

The same good fortune of freedom from untoward incidents which characterized the prince's trans-Atlantic journey continued until the end, and the landing occurred during a period of brilliant sunshine after an overcast day.

The Hamburg-American line steamer Deutschland, from Cherbourg, having on board the prince and his suite, was first sighted at 5:30 Tuesday afternoon. The German battleship Kaiser Wilhelm II. steamed down the roadstead to meet the Deutschland and returned escorting the big liner. The Deutschland tied up to the new stone quay, and was the first ship to dock there.

Emperor William stood upon the quay, surrounded by high naval and municipal officials. As representative of the American embassy at Berlin, Commander William H. Beeher, the naval attaché to the embassy, stood at the emperor's side.

The quay was decorated with the flags of all the states of the empire and the thousands of spectators who covered the roofs of the great warehouses and the wide slopes overlooking the scene, cheered wildly as Prince Henry walked down the gangway from the steamer. Emperor William kissed his brother upon both cheeks and shook hands with the members of his suite, saying a few cheerful sentences to each. In the meantime the guns of the squadron saluted.

Side by side his majesty and Prince Henry then passed down in front of the marine guard, which stood at salute. After this the marine guard passed in review, while the band of the imperial yacht Hohenzollern played the national anthem.

The passengers on the Deutschland crowded to the steamer's rail and cheered heartily during the ceremony. Some of the American passengers waved little American flags; otherwise the stars and stripes were not flying.

After the inspection of the guard of honor and the veterans by Emperor William, his majesty and his party, Prince Henry and his staff, and Commander Beeher boarded a tender, and amid fresh salutes, music and cheering, proceeded to the battleship Kaiser Wilhelm II. Upon arriving there the crew of that vessel manned their ship to receive the royal personages.

The Kaiser Wilhelm II. weighed anchor at 7:15 and started toward Kiel through the canal. A banquet was served on board the warship.

SPEECHLESS FOR YEARS.

Coughed Up a Piece of a Tooth and His Voice Is Restored.

Columbus, O., March 19.—Eighteen years Tuesday R. C. Davis, a resident of the west side, lost his voice. He was then a bass singer of some note in a choir of a church at Indianapolis. His misfortune came like a flash and refused to yield to the treatment of several of the most noted specialists of the country. Tuesday morning Mr. Davis was seized with a violent fit of coughing and ejected a small substance, which proved to be a bit of tooth, which he had unconsciously swallowed. The removal of this obstruction which had found a secure lodging place in a little pocket in the oesophagus just below the larynx immediately restored his voice.

TO THEIR NEW HOMES.

Thousands of Dunks to Colonize in the Northwest.

Chicago, March 19.—During the next few days over 3,000 Dunks and others will pass through Chicago en route to new homes in the northwest. The movement will include entire families from Indiana, Ohio, Pennsylvania and the Virginias, and they will for the most part go to the Missouri river district of North Dakota. Good crops in the northwest last year and the glowing reports sent back by preceding settlers are the causes that have induced the present heavy immigration.

The Story Denied.

Paterson, N. J., March 19.—The press is authorized to say that the representatives so persistently circulated to the effect that the wife and daughter of former Attorney General Griggs have become Christian Scientists are pure fiction.

Ex-President Cleveland's Anniversary.

Princeton, N. J., March 19.—Former President Grover Cleveland, who is now the only living ex-president of the United States, was 65 years old Tuesday. Mr. Cleveland spent the whole day at his comfortable home on Bayard Lane with his wife and children.

Lord Kitchener's Report.

London, March 19.—Lord Kitchener's weekly report shows that during the week ending Tuesday 11 more Boers were killed, seven were wounded, 158 were made prisoners and 128 surrendered.

DESTRUCTIVE BLAZE.

One Million Dollars Worth of Shipping Property Destroyed.

New York, March 19.—A swift, and in many of its details a picturesque fire, Tuesday night destroyed the pier of the Phoenix steamship line on the Hoboken, N. J., river front, with many bales of cotton and hay; burned that company's vessel, the British Queen, to a hulk, consumed several lighters and their cargoes, damaged a dock belonging to the Barber steamship line, and for a time threatened the property of the Holland-American line and the huge Campbell stores.

The loss, according to estimates, will approximate \$1,000,000. Whether any lives were lost was most difficult to learn. While the conflagration was at its height, and after it had been reduced by the firemen and fire boats, rumors were rife that several men perished. It was tolerably certain at midnight that Chief Engineer Scott, of the British Queen, was burned to death on her, and that a sailor named Jansen met the same fate. One of the men who escaped says that he saw several men leap into the water when the steamer became enveloped in fire, and he saw few, if any, of these rescued.

The quartermaster of the ruined ship said that the crew was in her fore-castle and he surmised that if all escaped they did so with difficulty. Nevertheless some of the British Queen's officers said Tuesday night they were quite assured that all were safe save Engineer Scott, who they simply said was missing. It is not unlikely that some of the longshoremen and stevedores who swarmed about the vessel may still have to be accounted for.

The estimated losses in detail are: Piers, \$300,000; British Queen, \$400,000; cotton and lighters, \$250,000. Seven lighters are more or less damaged.

The scene of the fire was Seventh and River streets, Hoboken. Together there are the docks and basins of the Phoenix line, the Holland-American line and the Barber line.

With but the barest warning the flames burst out, quickly licking up the piers and the cotton on it, driving the stevedores and sailors to the street, for the vessel was being unloaded, having arrived here Friday from Antwerp, cotton laden.

The captain of the lighter Tona-wanda saved himself, his wife and his child by pushing a cotton bale into the water, placing his family and himself upon it, and paddling his strange life raft into the river.

CORONATION DAY.

The King's Household Busily Engaged in Preparing For the Event.

London, March 19.—Every department of the king's household is busily engaged on the stupendous task of preparing for the coronation ceremonies. So very long is the list of the foreign princes and ambassadors who will be present that the court officials are at their wits end to decide how to dispose of his majesty's guests. Every available room in Buckingham palace and the other royal residences is already pre-empted and the lord chamberlain is gladly availing himself of offers of many of the finest residences in London. The Belgravia and Buckingham Palace hotels have been requisitioned in their entirety, four houses in Grosvenor square have been taken and in addition the lord chamberlain has thankfully accepted the proffer of Dorchester house, lent by Capt. G. L. Holford, the king's equerry; Chesterfield house, Hart Court and Wimbourne house. The Maharajah of Jeypoor, one of the many Indian notables coming to the coronation, Tuesday chartered the Anchor line steamer to convey himself and his suite to England.

ASKS FOR PROTECTION.

The British Consul at New Orleans Threatened By Boer Sympathizers.

New Orleans, March 19.—George Van Sittaro, British consul at New Orleans, declares his life and property in danger from Boer sympathizers in the city and Tuesday appealed to the mayor and chief of police for police protection. He says that anonymous letters have grown much more numerous and threatening of late and that dangerous and suspicious men constantly stand around his consular office as well as his house, contemplating, he believes, an attack on him. He asked, therefore, that a police force be stationed at both places.

That for the purpose of securing reciprocal trade relations with Cuba, the president is hereby authorized, as soon as may be, after the establishment of an independent government in Cuba and the enactment of said government of immigration and exclusion laws as fully restrictive as the laws of the United States to enter into negotiations with said government with a view to the arrangement of a commercial agreement in which commercial reciprocal and equivalent concessions may be secured in favor of the products and manufactures of the United States by rates of duty which shall be less by an amount equivalent to at least 20 per cent, ad valorem upon such products and manufactures than the rates imposed upon the like articles when imported into Cuba from the most favored of other countries, and shall not be greater than the rates imposed by the United States upon the like articles imported from Cuba; and whenever the government of Cuba shall enact such immigration and exclusion laws and shall enter into such commercial agreement with the United States, and shall make such concessions in favor of the products and manufactures thereof, the aforesaid and which agreement in the judgment of the president shall be reciprocal and equivalent, he shall be authorized to proclaim such facts both as to the enactment of such immigration and exclusion laws and the making of such agreement and thereafter until the first day of December, 1903, the imposition of the duties now imposed by law on all articles imported from Cuba, the products thereof into the United States shall be suspended, and in lieu thereof shall be levied, collected and paid upon all such articles imported from Cuba 30 per cent. of duty now levied upon like articles imported from foreign countries.

The president shall have power and it shall be his duty whenever he shall be satisfied that either such immigration or exclusion laws or such agreement mentioned in this act are not being fully executed by the government of Cuba to notify such government thereof and thereafter shall be levied, collected and paid upon all articles imported from Cuba the full rate of duty provided by law upon articles imported from foreign countries.

A Car Load of Dimes.

One would naturally think that the package dye business was a small industry, but there is more than one million dollars worth of package dyes sold in the United States every year.

One of the largest package dye factories in the world is that of the Putnam Fadesless Dyes Co., Unionville, Mo. In this factory alone, three million packages of Putnam Fadesless Dyes are made every year. To put up this amount of dyes requires the handling of seven million of envelopes, think of it, seven millions of envelopes laid lengthwise would reach a distance of seven hundred miles; if laid one upon the other they would make a pile of Putnam Fadesless Dyes 44 miles high. As each envelope has to be handled five times before a package is complete, the completion of three millions of packages requires that they be handled thirty-five million times. This of course gives employment to a number of people, the Putnam Fadesless Dye Company alone employ almost a hundred people, 90 per cent. of whom are young ladies.

As each package retails for 10c the weight of the retail price of the three millions packages in dimes is 18,000 pounds, or almost a car load.

"OPEN DOOR" IN CHINA.

A Russo-French Conjoint Declaration Issued.

The Russian and French Governments Are Wholly Pleased With the Objects of the Anglo-Japanese Agreement.

St. Petersburg, March 20.—The Official Messenger Thursday prints the text of a Russo-French conjoint declaration, sent March 16 to the Austrian, Belgian, British, American, Spanish, German, Italian, Dutch, Chinese and Japanese governments. The declaration is as follows:

"The allied Russo-French governments are wholly pleased to discern that the Anglo-Japanese convention supports the essential principles which, according to the reiterated statement of France and Russia, constituted and still constitutes the foundation of their policy. Both governments believe that the support of these principles is also a guarantee of their interests in the far east. They are compelled, however, not to lose from view the possibly inimical action of other powers or a repetition of disorders in China, possibly impairing China's integrity and free development to the detriment of their reciprocal interests. They therefore reserve to themselves the right to take measures to defend these interests."

The prefatory remarks say that Russia desires the maintenance of the status quo and the attainment of complete tranquility in the far east.

Paris, March 20.—The morning papers here comment with much satisfaction and approval upon the Franco-Russian declaration concerning the Anglo-Japanese convention, which, they consider, strengthens the chances of lasting peace in the far east as contributing to the establishment of necessary balance of power, a striking consecration of the dual alliance and a definition of its scope, field and objects.

"If," says the Figaro, "Germany and the United States have any misunderstanding regarding alliances and policy in China, or fears for the 'open door,' these are now removed. We are for the 'open door' on the condition that nobody attempts to close it on us."

EMPEROR WILLIAM'S PRESENTS.

Those Brought By Prince Chun Will Be Sent to Museums.

Berlin, March 20.—The presents given to Emperor William by Prince Chun, who came from Peking to Berlin last year to make atonement to Germany for the murder at Peking of Baron von Ketteler, the German minister to China, which have been in storage here since Emperor William refused to accept them. The emperor took this action because he believed their acceptance would be incompatible with the character of Prince Chun's mission. The presents, which consist of costly silks and objects of art, will, upon the second request of the Chinese prince, be sent to certain German museums.

AGED PENSIONERS' BILL.

The Measure Passed to the Second Reading in the House of Commons.

London, March 20.—The house of commons Wednesday passed the second reading of the aged pensioners' bill granting deserving poor persons a pension of from five to seven shillings weekly at the age of 65. It is estimated that the sum of £10,000,000 will be required monthly to pay the pensions, the national exchequer and the local authorities each providing half the amount required. As the government at Wednesday's session declared it could not provide its share, the scheme is not likely to become effective.

THE FRENCH COLUMN.

It Met With Serious Opposition From the Senoussi Tribe.

Paris, March 20.—The Journal Des Debats Wednesday says it learns that the French column in the Lake Tchad district of Africa, which defeated Chief Rabah's tribe, has since met with serious opposition from the Senoussi tribe. No details of the fighting have been received, but it is known that in an engagement near the capital of the district of Kahen, a French captain was killed.

MINERS MAY STRIKE.

Refusal of Operators to Confer on a Wage Scale the Cause.

Shamokin, Pa., March 20.—The miners' convention Wednesday began the consideration of the important matters which will decide whether the notices posted by the operators at the various collieries, announcing a continuance of existing conditions, shall be accepted or rejected.

The committee on rules and order of business met at 8:30 o'clock, a half hour previous to the assembling of the convention, and completed the details of their work. The delegates Wednesday morning displayed much interest in the expected presentation by President Mitchell of the letters from the presidents of the operating companies declining a conference with officials of the United Mine Workers in regard to a wage scale. These letters constitute one of the most important subjects to be considered by the convention, but the delegates having nothing but a general knowledge of their contents, declined to discuss their probable action concerning the communications. President Mitchell Wednesday reiterated his denial that the visit of Secretary R. M. Easley, of the Civic Federation, concerned the situation in the anthracite coal regions. When asked if he would make any further effort to see J. Pierpont Morgan, Mr. Mitchell said he had made no arrangements looking to that end.

During the executive session the convention appointed the committees on scale and on resolutions and heard the report of the special committee appointed to seek a conference with the operators. The delegates expressed keen disappointment and the opposition to continuing work under the present low wages and unfair conditions was unanimous and emphatic.

The indications here Wednesday night pointed strongly to a strike declaration and it is said by some of the men that the declaration may come as early as Friday of this week. The operators' letters seem to have caused much bitter feeling among the men.

Philadelphia, March 20.—It was learned here Wednesday night from trustworthy sources that in refusing to enter a joint conference with representatives of the United Mine Workers' union, the officials of the great coal carrying railroads and coal companies were careful to so word their declaration that it was not a direct refusal to meet the miners' representatives because they were successful. To this request the companies generally answered by letter, saying that it was impossible to arrange a wage scale that would be uniform because of the different conditions of mining in the different fields and on the ground that nothing could come of it, declined to meet in a joint conference as proposed.

MINISTER BELLAMY STORER.

He Paid His Respects to Secretary of State Hay Wednesday.

Washington, March 20.—Bellamy Storer, United States minister to Spain, Wednesday paid his respects to Secretary Hay. After a few days in this city, spent in the discussion of questions of mutual importance to this country, especially with the officials of the administration, the minister will leave for his home in Ohio, going thence to California, where he has extensive business interests requiring his attention. He expects to return to his post at Madrid within the 90 days time allotted him for his leave of absence.

Indianapolis, Ind., March 20.—Adams Express Co. officials say concerning the disappearance of L. S. McKee, of Indianapolis, their messenger running from Indianapolis to St. Louis, on March 3, that absolutely no clew had been found. The whole country has been flooded with pictures and descriptions of McKee.

THE MATTIE BENNETT GANG.

Three More Arrests Made in Connection With Its Operations.

Beaumont, Tex., March 20.—Three more arrests have been made here in connection with the operations of the Mattie Bennett gang of robbers and murderers. It is suspected that one of the three is the hackman employed by the gang to haul the bodies of their victims to the river. The sheriff refused to make known the names of the arrested men, who are whites, or to give any other facts, saying that publicity would hamper him in the arrest of other suspects. The trio just taken in has been sought by the officers constantly since the Emmett woman confessed a week ago.

He was taken before Judge John A. Blair, of Jersey City, on a warrant charging him with embezzlement in one instance of \$4,800, and was released on \$25,000 bail. Subsequently an indictment was found against him by the grand jury of New York county.

New Coinage Bill.

FIFTY-SEVENTH CONGRESS.

Washington, March 20.—Senate.—During the entire session of the senate Wednesday the bill providing for the protection of the president of the United States was under consideration. Mr. Spooner (Wis.) contended that the government had an absolute and inherent right to protect itself against assault made either upon its or upon any of its officers. He maintained that an assault on the president was, in the very nature of things, an assault upon the government, for there never was a time when the president was not in the exercise of the duties of his office. Mr. Bailey (Tex.) spoke briefly upon the bill. The Texas senator said he could not support the measure as it stands because he could conceive of an assault made upon the president as a personal and not as an official of the government. The assailant ought to be punished precisely as if he had assaulted any other citizen.

House.—The house made fair progress with the river and harbor bill. After the close of general debate, 27 of the 118 pages of the bill were disposed of. No amendments were adopted. The general debate Wednesday was featureless.

Washington, March 14.—Senate.—After the passage of a considerable number of unopposed and unimportant bills Thursday the senate resumed consideration of the ship subsidy measure.

House.—The house closed general debate on the post office appropriation bill and completed consideration of 12 of the 27 pages of the bill. No amendments were adopted. The principal portion of the general debate Thursday was devoted to the discussion of the appropriation for several mail facilities. Mr. Jenkins (Wis.) presented a detailed statement of his reasons for his theory that Cuba is now under the sovereignty of the United States, which sovereignty he contends can not be alienated without an act of congress.

Washington, March 15.—Senate.—Throughout the session of the senate Friday the ship subsidy bill was under consideration. The measure was discussed by Mr. Foraker (O.), Mr. McLaurin (Miss.) and Mr. Harris (Kan.).

House.—The house passed the post office appropriation bill. The only amendment of importance adopted was one to incorporate in the provision of the bill to classify the rural free delivery service, passed a few days ago. Quite a number of other bills were passed, including three bills for marine hospitals at Buffalo, Savannah and Pittsburg. The Burlington resolution calling on the secretary of state for the facts relative to the case of Dr. Thomas and wife who desired to go to South Africa to distribute relief funds, was adopted after a short debate in the course of which Mr. Hitt, chairman of the committee on foreign affairs, introduced a letter from Secretary Hay explaining what the department of state had done in the premises.

Washington, March 18.—Senate.—After prolonged debate the senate Monday passed the ship subsidy bill, the final vote upon the measure being 42 to 31. Senators Allison and Dilliver (Ia.), Spooner and Quarles (Wis.) and Proctor and Dillingham (Vt.), republicans, voted against final passage of the bill, and Senator McLaurin (S. C.) voted for it. Some amendments to the bill were adopted, but they were all agreed to those in charge of the measure, the friends of the bill voting down all other amendments. With the exception of amendments offered by Mr. Allison and accepted by Mr. Frye, limiting the time of the operation of contracts made under the provisions of the bill to July 1, 1920, and providing that the amount of the expenditure under the mail subsidy paragraph should not at any time exceed \$8,000,000 annually, none of the amendments agreed to materially affected the bill as it was reported from the commerce committee.

House.—The house Monday began consideration of the river and harbor bill. Mr. Burton (O.) made an extended speech in explanation of the measure in the course of which he presented many interesting facts relative to it. Several other members spoke briefly on the measure.

Washington, March 19.—Senate.—For three hours Tuesday the senate had under consideration the bill providing for the protection of the president of the United States and for the punishment by United States courts of those who commit assault upon him. Mr. Bacon (Ga.) opposed the bill and Mr. Hoar (Mass.) and Mr. Mason (Ill.) supported it. Earlier in the day a lively debate was precipitated by the effort of Mr. Rawlins (Utah) to have printed as a document some Philippine correspondence. Eventually the matter was ordered printed as requested. Thirty-nine private pension bills were passed and the calendar cleared.

House.—The general debate on the river and harbor appropriation bill was enlivened Tuesday by Mr. Hepburn (Ia.), who made his annual onslaught on the measure. Contrary to his usual custom, Mr. Hepburn found several things in the bill to recommend, although some of his criticisms were quite severe. The other speakers of the day were Messrs. Ball (Tex.) and Lawrence (Mass.), both members of the committee, and Messrs. White (Ky.), Thompson and Burnett (Ala.) who spoke in favor of improvements of interests to their districts. It was agreed that general debate on the bill should close Wednesday at 3 o'clock. Saturday, April 26, was set aside for memorial services on the late Representative Stokes (S. C.), and the late Representative Crump (Mich.).

The time is approaching w-
school boy will begin to count
still vacation.

Rev. Noon, of the Masse-
tal Abstinence Society passed
criticism: "Prince Henry's American
tour did not advance the cause of tem-
perance."

The sixty days grid of the Legisla-
ture is a thing of the past, and they
passed some bad laws, as well as defeat-
ing some good ones. Still on the aver-
age, the present session compared favor-
ably with others in the past, and every-
body seems satisfied that they did not
do any worse.

KENTUCKY cannot for two years—per-
haps not legally for ten years—be reap-
portioned into congressional, judicial,
senatorial and representative districts.
However, so far as that matter is one of
political concern, the Democratic party
"sits in the rocker."—Times.

SINCE the bill appropriating money
for a Kentucky exhibit at the St. Louis
World's Fair is beaten, says the Louis-
ville Times, we will have to depend on
Missouri ex-Kentuckians to let the
world know we are on the map. They
will make a fine exhibit, and it won't
cost us a cent.

The house broke the record the other
day, passing 239 private pension bills in
110 minutes, and we doubt if there was
a really deserving case among them.
With pension laws so liberal that even
an army mule can get a pension, the man
who has to appeal to Congress must have
a weak claim indeed.—Lexington Demo-
crat.

A WORTHY SUCCESSOR.

"Something New Under The
Sun."

All doctors have tried to cure
CATARRH by the use of powders, acid
gases, inhalants and drugs in paste form.
Their powders dry up the mucous
membranes causing them to crack open
and bleed. The powerful acids used in
the inhalers have entirely eaten away
the same membranes that their makers
have aimed to cure, while pastes and
ointments cannot reach the disease. An
old and experienced practitioner who
has for many years made a close study
and specialty of the treatment of
CATARRH, has at last perfected a
Treatment which when faithfully used,
not only relieves at once, but perman-
ently cures CATARRH by removing
the cause, stopping the discharges, and
curing all inflammation. It is the only
remedy known to science that actually
reaches the afflicted parts. This won-
derful remedy is known as "SNUF-
FLES the GUARANTEED CATARRH
CURE" and is sold at the extremely
low price of One Dollar, each package
containing internal and external medi-
cine sufficient for a full month's treat-
ment and everything necessary to its
perfect use.

"SNUFFLES" is the only perfect
CATARRH CURE ever made and is
now recognized as the only safe and
is also wonderfully quick to relieve HAY
FEVER or COLD in the HEAD.
CATARRH when neglected often
leads to CONSUMPTION — "SNUF-
FLES" will save you if you use it at
once. It is no ordinary remedy, but a
complete treatment which is positively
guaranteed to cure CATARRH in any
form or stage if used according to the
directions which accompany each pack-
age. Don't delay but send for it at once
and write full particulars as to
your condition and you will

You Do, or You Don't Need Glasses.

The eye being a rather delicate organ, great care
should be exercised in the selection of proper glasses.
Many believe that glasses should be resorted to only
when the sight becomes so defective as not to be able
to do without. This is a great mistake which must be
combated. Whenever there is unmistakable evidence
of the need of their aid, they should be used. A neg-
lect of this rule sometimes produces mischief which
results in serious trouble if the course be persisted in.

Circuit Court.

The grand jury has investigated 24 cases, has found 34 indictments and dismissed 4 cases.

A committee of the grand jury went to the County Infirmary and found everything in good condition, the inmates well cared for and apparently well fed and clothed. The inmates now number: 17 white males, 4 white females, 14 colored males, 2 colored females, a total of 37.

There is a child at the Infirmary (a girl) about 4 years of age, the child of Amy Duncan, an inmate, a bright, intelligent child, that the grand jury recommended be given to some of the reliable Children's Home societies, or be removed to more suitable surroundings. The grand jury also recommended that a suitable building be erected at the County Infirmary for a bath house for the white inmates. They also suggested that a remote part of the County Infirmary farm would be a good location for a permanent pest house to be used for patients with contagious diseases.

The grand jury visited the County Jail and it was found clean and well kept. Everything in nice order. A few repairs are needed which should be made at once.

There has been some complaint to the grand jury as to the condition of the turnpike. Since the recent sheet the pikes are filled with broken limbs which obstruct travel and in some places are dangerous. Some of the pikes need repairs badly, as they are filled with holes and ruts.

Seven indictments were returned against Gus Thomas, colored, of Claysville, for suffering gaming, concealed weapons, unlawful sale of liquors without license, and false swearing.

The insurance cases were taken up Thursday morning. The following gentlemen compose the jury: Josh Barton, J. A. Skillman, Ed Layson, Geo. Rassenfoss, A. M. Kier, C. D. Ray, Bishop Hibler, W. A. Parker, Stanley Gillespie, George Clayton, Joe Redmon, Denis Hanly.

Hon. John T. Shelby is engaged with Col. Breckinridge and Attorney Smith in behalf of the insurance companies, Mr. Wm. Worthington being their stenographer, while Mrs. Wm. Talbot is taking evidence for the attorneys for the county.

CHILD MEMORIES.

Just two little pattering feet,
Just two big, bright blue eyes;
And a smile like the April sunshine,
Chasing the clouds from the skies.

Just a little warm hand in mine,
Just a sweet little mouth to kiss;
Just a sound of merriest laughter,
And a cup running over with bliss.

Just two little shoes in a drawer,
Laid by with reverent care;
Just a faded old childish portrait,
And a lock of golden hair.

Just a few broken toys in a cupboard,
Just a dollie all tattered and torn—
But a stab through my heart when I see
Them,

And a pain too deep to be borne.

Just two little feet run on before,
Swift to the happy home;
Just a child on the threshold waiting,
And calling to "mother" to come.

Just a dream of joyous meeting,
And an eager "welcome home";
Just two little outstretched arms,
And a glad cry: "Mother is come!"
—Good Words.

A Photographic Proposal

By ETHEL COLSON.

(Copyrighted by Daily Story Pub. Co.)

OLD Mr. Brewer believed himself to be acting in a manner most broad and liberal minded indeed when he told young Philip Mainton that he might call on his daughter Gertrude as often as he liked, provided he spoke or wrote no word of love to the young woman. This embargo was to last until Gertrude, who had just passed her eighteenth birthday, was 20 and Philip correspondingly older. The young man accepted its conditions unwillingly, but with a moderate degree of cheerfulness in the beginning; he smarted under them considerably as they become more familiar.

It was delightful to see Gertrude as often as he liked, certainly, especially after the long weeks in which he had wondered how much longer he would be a welcome visitor at the Brewer mansion, but he soon found that the permission to see her often meant far less than it had appeared to do at first sight. He was not the only young man who say her frequently, to begin with. Gertrude was a pretty girl, bright and popular in the bargain; Philip began to live in a chronic state of fear lest some other fellow wise enough to speak to the girl should step in ahead of him. The girl herself did not seem, to his excited fancy, to take nearly so much interest in his attentions as she had done heretofore. Sometimes he was on the point of throwing up the whole thing for a year or two and going west. All of which was precisely what Mrs. Brewer had counted upon when she had consulted her husband to make terms.

"Gertrude is both headstrong and impressionable, my dear," she had said when Mr. Brewer had spoken of forbidding Philip the house for the time being, "and if you do that she will immediately fancy herself deeply in love with him, whether she is or not. Merely tell Philip that she is altogether too incompletely educated, as yet, to think of such things, and that he must not dream of telling her that he loves her—or thinks that he does—for some time. Ten chances to one they'll both tire of the fancy shortly, and if it's really love between them the waiting will do no harm."

After a time, however, Philip became so dead tired of waiting that he gave up the idea of going out west and decided to change his tactics entirely. He had promised to write or speak no word of love to Gertrude, certainly, but proposing had never been mentioned. Surely it was possible to make a proposal of marriage without uttering love-sick speeches! Yes, he would certainly propose, and that as soon as the opportunity offered.

But the opportunity was long in coming. Mrs. Brewer had a "nose for news" which would have made the fortune of a metropolitan newspaper reporter, and while she did not exactly suspect Philip of endeavoring to break his compact, so she gave her husband to understand, still she meant him to have no temptation of that order. The bones of her opposition were too nicely clothed in the flesh of conventional courtesy for Philip or any other man to discover them, but he strove against them in vain. Never a moment alone with Gertrude could he find or obtain. Even when they went upon photographing expeditions together—both being enthusiastic photographic amateurs—they were invariably accompanied by Gertrude's brother Benjamin, a spoiled youth of 14, his mother's darling, and also badly afflicted with the picture-taking craze. And yet it was through a photographic process that Philip carried out his will in regard to his innamorata and circumvented her mother's care.

The bright idea occurred to him one Sunday afternoon, as he worked over his newest lens, and he lost no time in trying it. Carefully printing a certain legend upon transparent white paper, he pinned the paper up against the window-pane and went over it again, more boldly and on the wrong side, with a charcoal crayon. Then he attached the paper, still wrong side outwards, to the wall and photographed the legend, backward. This he did because characters of this kind, photographed in the ordinary manner, are always reversed upon the negative. It is only in the printing that matters become straight again, and it was in the negative that Philip was particularly interested.

He carried it with him when he called upon Gertrude the following evening. The Brewers were orthodox

people and he feared to try his plan on Sunday. Gertrude fell in with it as delightfully as innocently and ran upstairs to her own little dark room to develop the plate immediately. Philip had explained that he thought she would understand the new experiment he wanted to share with her more clearly if she herself developed the negative. His heart gave a wild jump when Benjamin announced that he wanted to watch the development also. But once more Gertrude came to the rescue nobly, although quite unconscious of any need for so doing.

"No, Bennie, you can't," she told him, shutting the dark-room door with gentle decision; "you make me too nervous when I let you come in. I'll tell you all about the experiment afterward."

Philip really doubted that she would keep her word, but he said nothing. It needed all his self-control and patience to talk commonplace calmly with Mrs. Brewer until Gertrude returned.

The girl, meanwhile, had received a startling shock.

"Metol-hydrol I suggest as a developer," Philip had told her as she ran upstairs with the plate holder containing the "experimental" negative, and this agent she had accordingly prepared. She rocked the little tray back and forth for two or three minutes, then exposed it to the rays of the red lamp. Black and white "values" are also reversed upon a photographic negative, so the message which started up at her was outlined in gleaming white letters upon an ebony background. And this was the message:

"My Dearest Girl: Will you marry me?" Philip Mainton.

The girl grew white and pink as she read it. Then she laughed merrily and sat down to consider. Ten minutes later she went down to the parlor and explained that she had broken the precious negative. Whether by accident or design she did not say.

Philip colored hotly, and Mrs. Brewer, pitying his fancied disappointment over the lost negative, took Gertrude gently to task.

"I don't see how you could be so careless, my daughter," she remonstrated. "Nobody knows how much trouble Mr. Mainton may have taken to secure the negative you have destroyed. Can't you make it up to him in some way?"

"I don't know, mamsie," answered Gertrude, smiling and blushing adorably as she turned her face away from her mother and toward Philip. "I don't know. I shouldn't care to repeat the experiment myself, even if I knew how to do so, which I do not. But we might possibly present him with some other work of art, if you think best. Suppose we try."

A sudden thought made her cheeks burn yet more brilliantly, and she took from the mantel a small plaster figure of the conventionalized "Chicago," and offered it to Philip. And whether by accident or design, again, it would be difficult to say—her small forefinger pointed to the inscription: "I Will!"

UP-TO-DATE BUSINESS MAXIMS.

Some Sapient Sayings Which Contain Valuable Suggestions for Place Hunters.

George Ade contributes to the Century's "Ade of American Humor" a "Modern Fable of the Old Fox and the Young Fox." Here is some of the former's sage advice:

"Get acquainted with the Heads of Departments and permit the Subordinates to become acquainted with you.

"Always be easily familiar with those who are termed Great in the Public Prints. They are so accustomed to Deference and Humility, it is a positive relief to meet a jaunty Equal.

"The first Sign of Extravagance is to buy trousers that one doth not need. Every Young Man on a Salary should always beware of the Trousers' Habit.

"Do not give Alms promiscuously. Select the Unworthy Poor and make them Happy. To give to the Deserving is a Duty, but to help the Impudent Drinking Class is clear Generosity, so that the Donor has a Right to be warned by a Selfish Pride and count on a most flattering Obituary.

"Never try to get into Society, so called. Those who try seldom get in, and if they do edge through the Portals they always feel Clammy and Unworthy when under the Scrutiny of the Elect. Sit outside and appear Indifferent, and after awhile they may send for you. If not, it will be Money in your Pocket.

"Never Write when you can Telegraph, and in Wiring always use more than Ten Words. This is the Short Cut to being regarded as a Napoleon. The Extra Words cost only a few Cents, but they make a Profound Impression on the Recipient, and give the Sender a Standing which could not be obtained by an Expenditure of Four Dollars for a Birthday Gift. A man never feels more Important than when he receives a Telegram containing more than Ten Words."

What the Hungry Artist Did.

Once upon a time a poor, tired and hungry artist was wandering along a picturesque road when he met a yokel carrying an empty pail.

"Friend," he said, "you look as poor as I am. Are you not hungry?"

"No," was the answer. "I am not hungry, but I am thirsty, and I am about to satisfy that thirst."

"How?" asked the artist.

"By drawing a pail of water."

"Then," said the artist, "why cannot I satisfy my hunger by drawing a table d'hôte dinner?"

He sat down and did so, but got up as hungry as before.

SEE SOME GOOD IN TRUSTS.

Frenchmen in This Country Investigating for Their Government Discuss Combinations.

S. M. Lazare-Weiller and Baron de la Grotte, who are in this country representing the French government in the study of American industrial activity, have returned east. Mr. Weiller said one of the things they were sent to inquire into was so-called trusts.

"Under the French law," said Mr. Weiller, "such combinations of capital and equipment are not allowable, and we were directed to study their workings in this country—their effect upon the investor, the workmen and the public. My observations here have led me to the conclusions that there may be much good in such combinations."

"It is possible that some arrangement may be made whereby we will get a portion at least of our coal shortage from the United States. We may get coal here for our navy and perhaps for our railroads."

"We would like to learn something of your mental processes—whence comes that audacity which makes you dare to do things. We are afraid to do things in France—in Europe, I might say. It is the idea to send students here to study industrial problems and your methods of government."

WOULD CHANGE CALENDAR.

Dagobert Von Gerhardt, the Prussian Poet, Proposes a Year of Ten Months.

Dagobert von Gerhardt, the popular Prussian poet and novelist, has stirred the dry bones of German astronomical research by proposing a calendar reform that involves the division of the year into ten months—five consisting of 36 days and five of 37 days and making March the first month.

The idea rests on a philological basis. Von Gerhardt arguing that the derivation of September, October, November and December demands that they be made respectively the seventh, eighth, ninth and tenth months.

"If," says Von Gerhardt, "our Babylonian inheritance, the present system, cannot be shelved, the world should at least return to the ancient German system of naming the months according to agricultural conditions, such as the 'Hay' month—July."

Seeking Grave of Leather-Stocking.

Search has been instituted at New York to discover whether the body of Nathaniel Shipman, the hero of Cooper's famous "Leather Stocking Tales," lies in the churchyard of the First Baptist church in Hoosick Falls. It is firmly believed that the bones of the great trapper are resting here, but the exact whereabouts of the grave cannot be ascertained. The investigation discloses positively that "Leather Stocking" died in 1809 at the home of John Ryan, who had married his daughter. The object of locating the grave is to mark it with a suitable monument, the funds to be raised among the citizens of this historic locality.

Not Broken Up for Old Junk.

It has been learned, says the New York World, that T. W. Lawson's yacht, Independence, which it was stated had been ordered broken up and sold for junk, is so broken up that she can be put together at a moment's notice. Its parts are said to have been carefully stowed away. Every frame, every plate, in fact every part of the Independence is numbered and their storehouse is watched night and day. Mr. Lawson's plans for the boat are unknown.

HORSES LIKE TOBACCO.

One Nag That Got to Be a Confirmed Chewer of the Some Obnoxious Weed.

"You bet your life that horses love tobacco," said a horse owner to the man who was inclined to doubt his original assertion that horses were very fond of chewing tobacco, relates the Washington Star. "Don't they?" he asked the fat policeman who was listening to the argument. The latter assented, and the first speaker went on. "My old friend here," pointing to the policeman, "remembers that roan horse I used to have. Well, every morning when I went into the nag's stall she looked around at me as much as to ask if I had brought her morning chew of tobacco with me. I used to tease her by pretending I did not see her, but she would look around again, and then begin to make a noise. After I would tease her awhile I would give her a good chew of tobacco, and she would be satisfied. Then I gave her the morning meal on top of that. The tobacco was somewhat stimulating, and whenever it is once started you may be sure you will have to keep it up. It prevents colic, and makes the coats of the animals sleek and pretty. I remember a horse I used to have that I frequently gave a chew of my tobacco. One day I pulled a long plug of the weed out of my pocket, and after taking a chew myself handed it over to the horse. The animal tore off a big chew and was rolling it around in his mouth when I looked around and saw an old woman standing there. 'You ought to be ashamed of yourself,' she said. 'Isn't it bad enough to chew tobacco yourself, without teaching the poor beast to contract the vile habit?' I didn't answer her, as I felt certain that the horse was enjoying himself, while the woman fussed."

Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The body has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work, from disease. They get thin and weak. Some of the new ones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health.

No one has to wait his turn. You can do it yourself—you

and the bottle.

For The Complexion.
The complexion always suffers from biliousness or constipation. Unless the bowels are kept open the impurities from the body appear in the form of unsightly eruptions. DeWitt's Little Early Risers keep the liver and bowels in healthy condition and remove the cause of such troubles. O. E. Hooper, Albany, Ga., says: "I took DeWitt's Little Early Risers for biliousness. They were just what I needed. I am feeling better now than in years." Never gripe or distress. Safe, thorough and gentle. The very best pills.—W. T. Brooks.

Cancer Cured by Blood Balm—All Skin and Blood Diseases Cured.

Mrs. M. L. Adams, Fredonia, Ala., took Botanic Blood Balm which effected a cure of an eating cancer of the nose and face. The sores healed up perfectly. Many doctors had given up her case as hopeless, hundreds of cases of cancer, eating sores, suppurating swellings, etc., have been cured by Blood Balm. Among others, Mrs. B. M. CATARRH

The treatment of Catarrh with antiseptic and astringent washes, lotions, salves, medicated tobacco and cigarettes or any external or local application, is just as senseless as would be kindling a fire on top of the pot to make it boil. True, these give temporary relief, but the cavities and passages of the head and the bronchial tubes soon fill up again with mucus.

Taking cold is the first step towards Catarrh, for it checks perspiration, and the poisonous acids and vapors which should pass off through the skin, are thrown back upon the mucous membrane or inner skin, producing inflammation and excessive flow of mucus, much of which is absorbed into the blood, and through the circulation reaches every part of the system, involving the Stomach, Kidneys and other parts of the body. When the disease assumes the dry form, the breath becomes exceedingly foul, blinding headaches are frequent, the eyes red, hearing affected and a constant ringing in the ears. No remedy that does not reach the polluted blood can cure Catarrh. S. S. S. expels from the circulation all offensive matter, and when rich, pure blood is again coursing through the body the mucous membranes become healthy and the skin active, all the disagreeable, painful symptoms disappear, and a permanent, thorough cure is effected.

S. S. S. being a strictly vegetable blood purifier does not derange the Stomach and digestion, but the appetite and general health rapidly improve under its tonic effects. Write us about your case and get the best medical advice free. Book on blood and skin diseases sent on application.

Women and Jewels.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the disease from the system. Let a cure all but it is a certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at W. T. Brooks'. Get Green's Special Almanac.

Brain Food Nonsense.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at W. T. Brooks'.
